

**2201 Humbolt St
Bellingham, WA 98225
(360) 389-1056**

Greetings!

Thank you for choosing CAZ to process your sample. We are happy to provide this service to our clients and the community.

Please take a moment to review the following terms.

- The customer is responsible for properly collecting the sample and reporting where the sample was taken.
- CAZ will analyze all samples for type and concentration of asbestos at its laboratory and deliver the results to the customer.
- The laboratory will use the methods described in USEPA – Appendix E to Subpart E of 40 CFR Part 763; Interim Method for the Determination of Asbestos in Bulk Insulation Samples and the USEPA Method for the Determination of Asbestos in Bulk Building Materials (EPA/600/R-93/116, July 1993).
- The laboratory will not deviate from the methods listed above.
- The laboratory is not responsible for interpreting the results or providing professional advice about the results.
- The results listed in the report apply to the sample(s) as they are received and relate only to the samples tested.
- The report cannot be used by the customer to claim product certification, approval or endorsement by NVLAP, NIST, or any agency of the Federal Government.
- The risk incurred from collecting and delivering samples to CAZ is the sole responsibility of the customer.
- The results of analysis will be confidential between CAZ and the customer unless required by law or permission for sharing information is granted by the customer.
- Samples collected by an individual who is not an AHERA building inspector cannot be used for the Good Faith Inspection that is required for renovation or demolition purposes.
- The cost to process each sample is \$50.00 due at the time of drop-off in form of check, cash or card.

Please sign and return this letter if you agree to these terms.
